

Purifying Peel off bodywrap *Lithothamnium calcareum & Green Clay*

Photo Credit : Photothèque Setalg

Description

The Purifying Peel off bodywrap is a special formulation which has been developed in our Laboratories and designed to fit the exact shape of your body, thereby encouraging the action of its different ingredients. This bodywrap derives its special properties from the combined action of ingredients that are suitable for all types of skin.

Nature of the product

This bodywrap is a marine complex based on alginates which are extracted from Laminaria, and provide its natural smooth texture. Setalg combines it with l'Algalithe[®] and Clay with synergistic properties. The bodywrap quickly turns into a gel form when mixed with water.

Uses

Properties

There is a synergy between **Algalithe[®]** and the **Clay** that have complementary properties. When combined their exfoliating, smoothing and absorbent powers are more effective. The skin is cleansed and purified and the dead cells and impurities are removed.

It can therefore respire better and be nourished with the seawater nutrients that the seaweeds provide. Lastly, the skin becomes more supple and soft.

Application

- For a body treatment, mix 250 g of powder and 750 g of water at room temperature (20-25°C).
- Mix vigorously (+/- 2 minutes) until you obtain a smooth and homogeneous texture.
- Apply the treatment immediately in a semi-thick layer on a cleansed skin.
- The bodywrap will dry within 7 minutes.
- Leave the bodywrap in place for at least 15 minutes, then peel off in a single movement to leave the skin clean and lightly perfumed with the subtle fragrance of green tea.

Characteristics

Presentation	Powder
Colour	Violet
Fragrance	Green tea
Shelf life	24 months
Storage	In a clean and dry place, away from sunlight, at room temperature (20-25°C)
Customs tariff number	33 04 99 00
Packaging	20 kg bags 1 and 3 kg plastic buckets Sachets

→ **Special packaging on request**

Specifications

Mesophilic aerobic flora	≤ 1000 UFC/g
Yeasts	≤ 100 UFC/g
Moulds	≤ 100 UFC/g
Pathogens	None

Customized formulation

Setalg can develop your own formulations by choosing your ingredients, fragrances, colours and actives.
